B&T) 11:30am-1pm

**October 15th and 16th -Fall
Break, Campuses Closed**

Did You Know?

October is Mental Health Awareness Month:

As a teacher, taking care of your mental health is one of the most important things you can do for yourself, as well as your students. Stop by the centers on both campuses and check out our bulletin boards with tips on how to care for your mental health!

Certification Testing Scholarship:

RCTE offers a **one time** Certification Testing Scholarship! This can be used for the certification test of your choice. Qualified applicants must:

- Be a declared education major
- Be enrolled in, and/or have taken Pre-1
- Hold a 2.75 or higher GPA

Please note that we can not reimburse for testing, so please apply prior to registration.

★ COMMUNITY PARTNER HIGHLIGHT

Oklahoma Wildlife Department

The Oklahoma Department of Wildlife Conservation (ODWC) supports educators by providing resources, programs, and hands-on learning opportunities that bring Oklahoma's wildlife and natural resources into the classroom. Through educational materials, professional development, outdoor experiences, and partnerships with schools and communities, ODWC helps teachers engage students in meaningful lessons about conservation, stewardship, and the natural world. These efforts empower educators to inspire the next generation of Oklahomans to appreciate and protect the state's rich wildlife heritage. ODWC's education page includes in-school programs, teacher resources, field experiences, youth programs, and classroom activities.

Discovery Lab

Discovery Lab supports educators by providing hands-on science, technology, engineering, and mathematics (STEM) learning experiences that help bring classroom concepts to life. Through educational programs, field trips, teacher resources, professional development, and interactive activities, Discovery Lab encourages students to explore, experiment, and develop critical-thinking and problem-solving skills. These opportunities help educators create engaging lessons that inspire curiosity and a lasting interest in STEM. To learn more about Discovery Lab's educational programs, resources, and opportunities for educators, visit their website:
